# Marines Given Glory for Victory; Feet Said to Be Significant

(BY CABLE AND ASSOCIATED PRESS)  
COLON (Canal Zone) Jan. 18.—The American Atlantic Fleet was "defeated" today by the "enemy" fleet in a two-and-a-half-hour engagement in Colon Bay. By the victory, Admiral McCully, commander of the "Black" or "enemy" fleet, is believed to have gained control of the Caribbean Sea and perhaps of the Panama Canal.

# "CAPTURE" SIGNIFICANT

Unofficial observers were of the opinion that the comparative ease with which the marines solved the problems set for them in yesterday's maneuvers indicated what a real enemy might be able to do, although it was pointed out that there were only skeleton forces in the units of the defense system captured.

# LANDING OPERATIONS WERE CARRIED OUT WITH CLOCK-LIKE PRECISION

Under the cover of a smoke screen laid down by the auxiliary "Black" fleet, 400 marines of the 1st Marine Division landed on the beach at Limon Bay toward Fort Randolph. At the same time another detachment of 500 marines of the 2nd Division landed on the beach at a point south of the fort, and while the garrison was speculating as to the "enemy's" intentions, the 400 marines of the 1st Division landed on the beach at Limon Bay.

# THREE HUNDRED MARINES TOOK PART IN THE OPERATIONS AT COCO SOLO

The day's work would have been begun earlier—perhaps before dawn—but the units of the "Black" fleet found it difficult to co-operate in the dark and a delay of many hours resulted. ## Mexico Troubles Absorb Cabinet

(BY JACK STARR-HUNT)  
MEXICO CITY, Jan. 18.—The Mexican problem, particularly with relation to the attempted rebel blockade of Tampico, occupied Cabinet attention today almost to the exclusion of other matters.

# Action on Attempted Rebel Blockade of Tampico Is Considered

For a time it appeared that some action to insure the freedom of American commerce with the port was impending, but developments of an undisclosed character later prompted an authorized statement at the White House that the President was not expecting any difficulties on account of the Tampico situation.

# Administration Anxious to Avoid Direct Clash With Insurrectos

Before the White House statement was issued, the State Department announced that on arrival of the cruiser Richmond at Vera Cruz, probably the rebels would take aboard the 253 members of the crew of the wrecked Tacoma, who are ashore in the rebel-controlled city under protection of American naval forces.

# WAR MOVE EXPECTED

Foreknowledge that the department was preparing to issue some statement with relation to the Tampico blockade led to the strong impression that the sending of American war vessels to Tampico for the protection of American commerce and other interests was under contemplation.

## CREDIT BANKS SHOW PROFIT

Net Earnings Four Months Last Year \$304,542

## Farm Loan Commissioner is Highly Pleased

South Carolina and Kansas Highest of Twelve

(BY A. P. NIGHT WIRE)

WASHINGTON, Jan. 18.—The Federal intermediate credit banks already have demonstrated their ability to make their own way, Commissioner Cooper of the Federal Farm Loan Board declared tonight in announcing that net earnings of the twelve banks from their creation last year to the last date were \$304,542. The commissioner asserted that the operations, which covered actually only four months of lending, were "extremely satisfactory and indicated that the banks may be depended upon to serve the country and not be a drain on the government."

Under the intermediate credit act, the banks are obligated to pay one-half of their net earnings to the treasury. This is in addition to the interest they must earn on the capital stock, which is held solely by the treasury. Sixty million dollars was authorized as capital for the twelve banks, but only one-third of that amount actually has been employed.

The Columbia (S. C.) Bank, had the highest net earnings with \$42,321, and Wichita (Kan.) Bank was second with \$34,824. Both had their lending machinery ready for operation slightly in advance of the other banks. The net earnings of the other banks follow:

Springfield, Mass., \$15,368;

Baltimore, \$14,321; Louisville, \$12,184;

New Orleans, \$10,643; St. Louis, \$10,585;

St. Paul, \$10,514;

Omaha, \$10,591; Houston, \$10,464;

Berkeley, \$10,177; Spokane, \$10,181.

While the truck burned merrily in the lot, the fire department refused to let it burn. The fire was soon extinguished, and thousands of dollars worth of government stores returned to their desks.

## Bakersfield in Settlement on Annexation Row

(EXCLUSIVE DISPATCH)

BAKERSFIELD, Jan. 18.—Residents of Bakersfield proper and the district known as South Bakersfield have reached an agreement regarding the bitter annexation battle which has been waged here for several months, and a movement has been launched to incorporate the more city-like and 1400 more persons in the city limits.

The annexation election will be purposely deferred until March 1, in order to assure the new addition property owners freedom from taxation for the ensuing twelve months.

As a result of the agreement, a city charter revising committee will be appointed in the near future to bring Bakersfield's charter up to the pressing requirements due to the city's extensive development.

## RUSSIA WANTS DOOR OPENED FOR CAPITAL

TRADE COMMISSION SAYS OUTSIDE ASSISTANCE IS NEEDED

(BY CABLE AND ASSOCIATED PRESS)

MOSCOW, Jan. 18.—Leonid Krasin, Commissioner for Foreign Trade, renewed his campaign for more opportunity for foreign capital in a speech at the Communist conference yesterday, asserting that it was becoming more and more obvious that Russia was in need of foreign assistance in re-establishing herself economically.

M. Pyatakov, former head of the commissions committee and now chairman of the Federal Supreme Economic Council, took the view that Russia already was leaning too much toward capitalism. A number of those who are listed in opposition to the controlling faction of the party Pyatakov remains an ardent spokesman of that element which openly regrets the rise of private capital over state-controlled enterprise.

L. Woods and C. F. Powers, two life-termers recently recaptured in San Diego.

It is understood that a third prisoner was included in a proposition made in which the Chandler men were to be taken to an alleged treasure in the hills north of Phoenix and that a large motor car was in waiting for the two escaped convicts.

## CREDULOUS TWO ALICES UNDECEIVED

Chicago Bigamy Suspect Had Explanation for Talk in Sleep and Notes

(EXCLUSIVE DISPATCH)  
CHICAGO, Jan. 18.—Although he had two wives and talked in his sleep, William H. Cook, former bond teller at the Illinois Merchants' Bank, got by with it for the simple reason that both wives were named Alice. He is in custody on a charge of bigamy, preferred by wife No. 1.

"He'd never have gotten away with it so long if both our names weren't Alice," says the rightful wife today. "He was always talking about 'Alice' in his sleep, but I thought he was calling me."

Also, the gent who is overat on wives was able to explain away notes to "Dearest Alice," which wife No. 1 ran across. He told her they were intended for her. Both wives have combined against him now and it looks like a hard winter for Mr. Cook.

Alexander Lawson, 31 years of age, was arrested yesterday on the charge of having accumulated one wife too many. Recently he married Irene Rock, 19, and they set up a nest, but wife No. 1, whom he married eleven years ago, swooped down upon them and had her trifling spouse hauled to the house.

Charles N. Shaw, who will fight to break the will in what promises to be a sensational trial, is ill at the Deaconess Hospital. He disposed of most of his holdings in the candy concern to Otis Emerson Dunham, a Boston attorney, four years ago.

Following the separation of the Shaws in 1932, Mrs. Shaw secluded herself in her Back Bay home, surrounding herself with a few former employees in whom she placed great confidence.

Her husband took up residence on Chestnut street, Beacon Hill, and also acquired considerable time in Florida and California.

More than \$100,000 worth of valuables, including furniture, antiques, rugs, statuary and bric-a-brac, could be carried away during a night, according to lawyers in the case.

## FRANCE MAY BAR ENGLISH LIQUOR

(BY CABLE—EXCLUSIVE DISPATCH)  
PARIS, Jan. 18.—Americans and Englishmen living in Paris are alarmed at reports that the government intends to place an embargo on foreign spirits, cutting off gin and whiskey as a measure to stabilize the exchange, as huge amounts of francs are paid in London monthly for liquor. Government economists believe that French distillation of gin, developed during the war and abandoned when the franc was devalued, could be carried away during a night, according to lawyers in the case.

## GARDEN CHOSEN AS PARTY ARENA

Waldorf-Astoria Committee Headquarters  
Democrats Mapping Ground for Convention

New York City Will Spend \$500,000 as Host

(BY A. P. NIGHT WIRE)  
NEW YORK, Jan. 18.—The advance guard of the Democratic National Committee came to New York from Washington today and surveyed the field where the political battle for the party Presidential nomination will be waged next June.

They established liaison with the non-partisan citizens' committee, picked the Waldorf-Astoria Hotel for national committee headquarters, inspected and approved Madison Square Garden as an ideal political arena; and began the vast work of organization necessary to the entertainment of at least 200,000 expected visitors.

Cordell Hull, chairman of the Democratic National Committee, headed the delegation, which included Norman E. Mack, chairman of the committee's arrangements sub-committee, and eleven others, among them Mrs. Emily Newell Blair of Missouri, and Mrs. D. A. McDougall of Oklahoma.

When they asked about the rental cost, the sport promoter grinned, saying: "Why talk about a few thousand dollars when you've got a thing like this? I have to hand out a couple of dollars to each of the fellows who have got the greatest show on earth."

Arrangements were made to house the four major convention committees at the Madison Square Hotel, adjoining the Garden, and with private entrances to it.

Tentative plans are for a huge speakers' platform to be built on the north side of the arena, extending almost to the present boxing ring. It thus will be almost in the center of the big oval.

Seven hundred press desks will flank the platform. The band stand will be erected directly opposite.

## WANTS RACIAL TEST AT BELOIT COLLEGE

(BY A. P. NIGHT WIRE)  
BELOIT (Mich.) Collier, dean of the school, and widely known anthropologist. The plan is feasible, Dr. Collier said. It would bring selected students here from all the races and subdivisions of the races.

You hear people so often on every side crediting this or that good thing to "habit." And do you know there is much food for thought in the idea. Saving can become a habit with very little sacrifice on our part, and oh, what a splendid virtue you acquire! Of course you may need a little encouragement to put aside a small sum every day, week or month, and that encouragement, if you are a person who gives more graciously or accompanied with sound advice and helpful suggestions than by Miss Sallie Sallie, head of the women's department of the Bank of Italy, at Seventh and Olive. We are all very proud of this institution, and this department, because women have greater need now than ever of financial advice, and a growing number of patrons are proof of that.

"Have salad the mainstay of luncheon every day. It is a habit—this eating of salad. A whole new habit, too. And besides it is an easy thing to prepare a salad luncheon. Men like them and get a more and more decided taste for them if they are good."

"A new guarantee of safety" fitly describes "Frozen Steam." For the benefit of any new reader who is puzzled by the name it is explained that "Frozen Steam" is made by changing pure "sterilized steam" into the liquid state, possible temperature—namely, 23 degrees below freezing. The process is most expensive and the exclusive manufacturers of the Merchants Ice and Cold Storage Co., who are also the sole distributors. "Frozen Steam" when melted, may be drunk with perfect impunity because it is absolutely free from germs; so, housewives, take note of the advantage of having "Frozen Steam" in place of ordinary raw water ice and as soon as possible begin your use of this unexcelled refrigerant. For those who have not yet tried it, let them forget. It's 871-551.

It is not wise to lay in large quantities of cereals, raisins, spaghetti and other nice-attracting foods. Stores are so handy to most of us nowadays that the few extra cents gained on buying these things in bulk are not worth the worry we have in keeping away mice and bugs.

"The said Miss Britannic Majesty, George V, has three gastronomic weaknesses—fresh carver, griddle and ice cream. Hostesses who are graciously permitted to dine the King are always tactfully instructed to see that this trifling of good eats be served for the delectation of the royal palate. What a pity that Hughes Ice Cream, not being an article of export, has never reached the table of the gentleman at Windsor with the enthusiastic taste for the great American frozen dainties! Hughes Ice Cream is literally "fit" to be before a King, as more people are finding out daily.

For breakfast or even supper a thick slice of ham is most delicious if you serve with it slices of apples—one-third of an inch thick which you have fried in the fat left from the ham. The tartness of apples sets off the flavor of the ham.

Like the "gleaming lilies bathed in moonlight" of which the poet sings, will be the sheen of your household and personal linens if you patronize the ever-dependable "Crown" Laundry. Not only are your sheets, towels and table cloths returned to you in a state of fragrant spotlessness in an incredibly short space of time but your fragile personal apparel, entrusted to the average laundress service at great risk, comes back in its original state of lacy intactness when one is a Crown customer.

If sandwiches are put into a deep dish, covered with a damp cloth, and set in a cool place they will keep for hours.

You may smile at the idea of whitening white by using White King Washing Machine Soap, in granule form, when having any laundering done, but the smile will change to one of amazement and gratification when you inspect the garments you felt certain would possess a pallid appearance. Oh, White King is a royal adjunct both in name and qualification to your home. None who use one boxful dispute it. For home washings you will find it far excels. Indeed, the modern housewife says White King Washing Machine Soap does more things better than any soap ever put on the market. No concern need be felt over your inability to find it at your neighborhood grocer's. He wouldn't be without it!

Steel paring knives which are stainless save energy and cost but a few cents.

You will all be happy to know that the Reliable Curtin Cleaning Company, 1957 E. Vermont (near Washington), are tinting linens so that they have that beautiful antique color which permeates blends with the furniture and wall decorations of the moment. This tinting is very new—a departure from the ordinary, and it is certain to be a valuable news to those eager to send their linens to a trusted, competent concern like the Reliable.

Save the stick that the new rug is rolled on, cut a notch in one end, and you have a new member for the clothing prop brigade.

More good news! Go into the Hess Hardware Company, 856 E. Figueroa street, and get a 7-ounce Radiant heater for \$10.75. Not only are they extremely economical to burn, but they give utmost satisfaction by throwing the heat just where desired, and are guaranteed odorless.

Paper clips are very useful in sewing. Use them when basting seams and in turning up hems. They will not fall out readily.

What, never had luncheon—or yet dinner at Mora's Grill? Well, you have missed a treat indeed! Perfectly delicious food, bought first of all with utmost care, then cooked to perfection. You'll like the location too. 107 W. Market St., the old quarter part of Los Angeles, just a half block south of the postoffice.

Every housewife should own a candy thermometer in order to be able to accurately ascertain when sugar cooked for icing is boiled enough. Guessing often spoils frosting and brings about waste.

You can't imagine any place more inspiring than one of those rather brisk January mornings when the sun's rays stream through the east window, when the electric percolator so merrily "dances its tune" on the daintily appointed table. Of course, Majorie uses Cleo Koe—that best of good coffee—in her percolator and thus starts the day right. You too, may buy it—costs but 35 cents a pound. It will be delivered anywhere by phone to Vermont 4551.

Velvet garments should be washed in lukewarm soapsuds, but neither rubbed on, nor soaked in warm water. Rinse in lukewarm water and lift it in a clothes hanger to let it drip. Shake out the water, then, when it is almost dry, it can be brushed with an ordinary clothes brush, rubbing with the pile.

"Sweetness and Light" are prime factors in affairs of the palate as well as in the conduct of life. A few essential then, to know that these elements enter into the composition of the staff of life—the bread that appears three times a day upon the table of families all over this broad America of ours. "Honey" bread, that superlative product of the California Baking Company, is made under the most sanitary conditions in a great room equipped with modern machinery. Actual honey of a superior grade enters into its composition. It is kneaded to a smooth texture and turned out in perfect loaves of uniform crisp crustiness. Your grocer should sell it.

After washing milk bottles, never turn them upside down to drain. Keep them upright so the air can enter them and keep them sweet and fresh.

You know how an auctioneer calls out: "Going, going, gone!" at the completion of the sale in any article. Well, when he says "gone" it means that your last chance to secure a bargain has expired. We might take up the same "gone and cry" in regard to the sale now in progress at Simart, 731-57 W. 9th street, near Figueroa. Imagine being able to buy a pair of all-wool blankets for \$4.85, with lovely colors to choose from. Another splendid value is the \$5.75 half-wool blanket. So soft you'll want at least one pair. Yes, there is always room to park outside.

Soak corks in hot water for a few minutes if they are too large for the bottles. This will soften them so they can be adjusted easily.

Compare Castruccio Bros. Virgin Olive Oil with any other brand regardless of the cost and the boast is made that you will without the slightest hesitancy say that you never used an olive oil so fine! You see its imported from Italy—where it was made from olives possessing the flavor only old trees can give! Then those who make the oil have perhaps devoted their entire lives to the work and take great pride in having it perfect. Your grocer if a good one can send you a can of Castruccio oil to try. Look for the Red Crown on the red and gold can to be sure its genuine.

A few drops of turpentine added to the starch will make collars and cuffs beautifully glossy.

A hot flat-iron as a foot-warmer often scorches the sheets. Avoid this by slipping it into worn socks.

A cake mixer saves time and is most satisfactory, especially when making fruit cake.

Iron pongee when dry—not damp. In this way you prevent the dreaded appearance so many complain of.

Wearing gloves when sweeping does not altogether keep off "broom corn." A better preventive is two pieces of velvet or felt fastened with glue to the broom handle just where you usually grasp it.

The quick way is to sift one cup of buckwheat flour with one cup of white flour, four level teaspoons of baking powder, two tablespoons of sugar, and half a teaspoon of salt; add to these two tablespoons of molasses, one beaten egg and four cups of lukewarm water and mix well and bake on hot well-greased griddle.

For the old-fashioned buckwheat cakes dissolve one cake of yeast in half a cup of lukewarm water with one teaspoon of sugar, stir with six level teaspoons of buckwheat flour one teaspoon of salt, and beat to a smooth batter with four cups of lukewarm water and the dissolved yeast; cover and let rise over night; add two tablespoons of molasses and bake in small cakes on a well-greased hot griddle.

#### LIVER DUMPLINGS

H. C. Los Angeles, wants to know how to make liver dumplings.

Put through the fine knife of the meat chopper twice half a pound of liver and one quarter of a pound of fat bacon. #### MOCK DUCK

A. H. Los Angeles, would like to know how to prepare mock duck.

Buy a flank steak and have the butcher score with a sharp knife. Place four tablespoons of butter in a frying pan with two tablespoons of chopped onion and cook until the onion is clear and soft; add two-thirds of a cup of soft stale bread crumbs, one-quarter of a teaspoon of poultry spice, a pinch of sage, and a pinch of pepper; spread the mixture over the flanked steak, roll up and tie in shape with white string. The railbirds who

money's worth and then  
Enough thrills were  
some of the would-be

several of the boys went  
up for a picture, the

fixed dirt-track racing.

Karl Harris, driving  
labeled a Strickland  
gave a large, congratulatory  
free-admission pass to  
on two different occasions.  
He attempted to evade a  
team leader. He was  
as far as the racing  
turned, but wound up on  
side of the fence headed  
opposite direction. The  
time he was flagged down  
up for a picture, the  
suits being the same.

Mr. Harris's performance

the big metropolises surrounding  
Los Angeles like Glendale, Red-

haps the most interesting  
champion of them all is

## WHAT'S DOING TODAY

## Charles Post, Los Angeles Attorney, Dies

Charles A. Post, 52 years of age, a prominent member of the local bar, died at his home, 1224 E. 10th avenue, yesterday, following an extended period of ill health and a recent major operation. Funeral arrangements will be announced later.

Mr. Post was born in Lowell, Ind., the son of Charles P. Post and Mary A. Davis Post. He received his early education in Indiana and moved to Los Angeles in 1914, graduating from the State Normal School here in 1917. He taught in the public schools at Palms for five years. He was admitted to the bar in 1923 and soon thereafter formed a partnership with the practice of the law with Judson M. Davis and the late Robert W. Kemp. This well-known partnership continued unbroken for many years. During the last few years Mr. Post practiced his profession alone, maintaining offices in the Citizens National Bank Building.

He was widely known in fraternal circles having served as Supreme Counselor of the Fraternal Brotherhood for many years. In 1927, Mr. Post was married to Edna B. Willman, who survives him.

Homeward bound crowds were delayed for half an hour last night by a break in the trolley wire in the vicinity of the Third and Broadway. Police lines were formed and the trolley was towed to the depot by a cable car.

TRIAL WITNESS  
FACES PERJURYArrested on Suspicion Due  
to TestimonyMoney Demand is Denied in  
Bribery CaseCharge Made by Pair After  
Hunting Trip

Called by the defense to prove that Earl A. McDonald was not at home at the time he is accused of accepting a bribe, W. R. Eram yesterday was ordered held on suspicion of perjury in connection with the hearing before Justice Wood.

McDonald, a resident of Venice, is said by the state to have demanded money from R. E. Davis and E. C. Burns to "fix" a case of trespassing and illegal hunting. The money was said to have been paid to McDonald when he was on a hunting trip.

GUY RESUME CHARGED

McDonald, according to the story told yesterday by Davis, approached them, showed a special deputy sheriff's badge and told them they were guilty of trespassing and illegal hunting. He then told them to call him the next day to arrange a bail.

Davis and Burns told their story to Dep. Dist. Atty. Clark and were advised to pay the money to McDonald. However, they refused to accept a check and told the man to bring cash. They declared, according to Clark and Capt. Watson of the police department, they returned the afternoon after the hearing.

When the officers searched the house, the money could not be found, but McDonald was taken into custody and charged with receiving a bribe.

James Friend, McDonald's brother, was called to the stand by Frank McDonald, brother of the accused man, who is acting as defense attorney.

His testimony was to the effect that McDonald had been on a visit to a ranch owned by Davis and Burns and that he had talked to him. He added he had been present during the hearing in the afternoon and had heard nothing concerning the money.

When Eram told the stand, Dep. Dist. Atty. Ryan ordered Deputy Constable Webster to take him into custody while the story was investigated.

The case was continued until Wednesday.

Francisco to San Diego. In one hand he will carry his staff and he will lead by the other one of the small Indian boys whom he will lead in the procession. The statue will be of heroic size and will cost approximately \$15,000.

The placing of the statue of Fray Serra in the Memory Garden is a part of a plan to preserve the mission of San Juan Capistrano in its original beauty. It will stand on the historic old stone wall, beside the star-shaped fountain built by the Indians more than 125 years ago, and copied by the padres from one in Cordova, Spain.

MANY TO ATTEND

Among those who will go from Los Angeles for the ceremony, in addition to Mr. Maclean and Mrs. Maclean, will be Mr. Maclean's wife, Mrs. E. D. Chubbard, John McGroarty, author of the Mission Play, Mrs. Florence Dodson, Schlegelman, chairman of the highway committee of the Los Angeles Federation of Women's Clubs and a member of one of the six Spanish families of California to be granted land from the King of Spain; Mrs. Hancock Banning, Mrs. Gilles Hall, Mrs. William Lee Woollett, Mrs. Guerdon Wattles and Mrs. Chester T. Hunt.

Others interested are C. L. Ornduff, Mrs. Bert Clifford, Mrs. A. P. C. Forbes, Mrs. Patrick Campbell, Sarah M. Johnson, Dorothy A. Doyle, Katherine Carr, Grace Frye, Mrs. Caroline S. Bradley, Mrs. George H. Winworth, Mrs. Joseph Simons, Mrs. George Barrow, Mrs. Eugene I. Hughes, Ruby J. Verne Thompson, Mrs. J. T. Lindley, Mrs. Edwin Mace and Mrs. Robert E. Fargo.

the audience for nearly an hour with his eloquence and wit. "The generous people of the prosperous Southland will not fail to contribute to the preservation of the unfortunate children of Germany," said Mr. McGroarty. "There is indeed a subject of interest to all of us and it would seem that it is of special interest to the bakers. However, I would like to talk of something of more importance than bread—more important even than newspapers and movies and jazz. I would like to talk about C-A-L-I-F-O-R-N-I-A."

Lovingly the speaker dwelt on each syllable of the name of the Golden State as if to him the word "California" meant all that is beautiful and sacred in life. Then he made a plea for the old mission.

"Had Father Junipero Serra not stood out against the move to go back to Mexico the Russians and Orientals would have swarmed down from the north and taken this glorious territory and the probabilities are that California today would not have been the queen of this starland of States," said the speaker.

Speaking of bread—idealism is the bread of life to all awakened souls. Gratitude is a fundamental trait of the human heart. If we, as Californians, are truly thankful for the work accomplished by the Christian men and women who brought the light of the world to these western shores, let us prove the genuineness of our sentiments by subscribing to whatever plan may be promulgated for the preservation and restoration of these historic landmarks of the State, the California missions."

HURT IN EXPLOSION

George Hardy of 1410 East Washington street was perhaps fatally burned yesterday by the explosion of a steam-pressure cooker at the Mosley Veterinary Hospital. Hardy was cooking meat for dogs kept at the place when the explosion occurred.

CHECK FORGERS

many aliases, with a long record as a successful "paper hanger." Mayer was arrested here by members of the check detail on December 21. His asserted forgeries amounted to more than \$125,000 and were perpetrated on large banking organizations in as many cities as Kansas City, Mo.; New Orleans, La.; Portland, Ore.; Brooklyn, N.Y.; Buffalo, N.Y.; Boston, Mass.; St. Paul, Minn.; and Detroit, Mich. He was turned over to the Kansas City authorities for prosecution.

NEW METHODS SUCCEEDED

In commenting on the work accomplished by the check detail, Chief Vollmer took occasion to explain why he organized this division of the Detective Bureau. The methods used under his new system of combating "paper hangers" and the results he believes have been obtained both psychologically and materially by the increased activity of the members of the check detail. The choice of his men was made to handle the type of crook and the adoption of the ordinary methods of police investigation in this line of work were left to Captain of Detective House.

On the advice of the Chief, R. A. Abbey, finger-print and handwriting expert of the Bureau of Records, Mayer made a member of the squad. During the first week that Mr. Abbey worked with the squad, the knowledge of handwriting enabled the squad to make and arrest and cause a confession to be made in a case which otherwise would have been a hopeless one.

"Quick action and accurate data will enable us to sweep bad-guys out of Los Angeles and will save hundreds of thousands of dollars each year for honest citizens. We are enabled to do this because of the knowledge of handwriting and the reorganized Los Angeles police department is going to show the world that we can meet all emergencies and catch the bad guys with all the latest tools to move in on us." Such was the comment of Capt. Abbey.

Chief Vollmer stated he wished the public of Los Angeles to know that "something is happening in the city. Real police work is being done. The reports are undeniable. They indicate just the beginning of the campaign against the criminal element, and the finish is going to be tough for the 'paper hangers'."

ported to have gone to great lengths to deliver the goods. That the motion-picture people believe the goods will be delivered is evidenced by the fact that they look through the Pullman coaches to carry the trucking through north. In order to accommodate the 400 stars, club members and their friends, who made reservations, the Southern Pacific ran the Lark in three sections, two of nine cars each and one of eight. The first train left at 10 p.m. and the regular time, 11 p.m., with the other two sections following at five-minute intervals.

Included in the big party were practically all the big stars of Hollywood, together with the most prominent producers and directors of the film industry. Fred Bibb, president of the Motion Picture Producers' Association and king pin in the fight against blue laws, is acting as master of ceremonies.

ROTARY CLUB  
ASKED TO GIVE

the audience for nearly an hour with his eloquence and wit. "The generous people of the prosperous Southland will not fail to contribute to the preservation of the unfortunate children of Germany," said Mr. McGroarty. "There is indeed a subject of interest to all of us and it would seem that it is of special interest to the bakers. However, I would like to talk of something of more importance than bread—more important even than newspapers and movies and jazz. I would like to talk about C-A-L-I-F-O-R-N-I-A."

Lovingly the speaker dwelt on each syllable of the name of the Golden State as if to him the word "California" meant all that is beautiful and sacred in life. Then he made a plea for the old mission.

"Had Father Junipero Serra not stood out against the move to go back to Mexico the Russians and Orientals would have swarmed down from the north and taken this glorious territory and the probabilities are that California today would not have been the queen of this starland of States," said the speaker.

Speaking of bread—idealism is the bread of life to all awakened souls. Gratitude is a fundamental trait of the human heart. If we, as Californians, are truly thankful for the work accomplished by the Christian men and women who brought the light of the world to these western shores, let us prove the genuineness of our sentiments by subscribing to whatever plan may be promulgated for the preservation and restoration of these historic landmarks of the State, the California missions."

CHURCHES PLAN PAGEANT  
Presbyterians of Southland to Entertain Local Citizens  
With Brilliant Exhibit

(Continued from First Page)

In order to bring to Los Angeles citizens a knowledge of the missionary work being conducted abroad by the 1,732,000 Presbyterians in America, Presbyterian churches of Southern California are planning a world exhibit at Immanuel Presbyterian Church of Los Angeles, the 31st to 24th insts. and at the Pasadena Presbyterian Church the 28th to 31st insts., utilizing about 600 participants in costumes and dramas, representing various phases of life from sixteen different countries and sixty-seven nationalities.

Twenty-five separate booths will be constructed, each portraying a particular phase of missionary, educational, evangelistic or social service work of the Presbyterian denomination. Fifty-five Presbyterian churches in and near Los Angeles and Pasadena will be responsible for the exhibits.

On a central platform will be dramatizations visualizing the conditions of life in many lands and the needs of 100,000,000 people in the fifteen different foreign nations among whom the Presbyterians are working. A special exhibit committee is in charge of this phase of the exposition with Mrs. R. C. Clark, Pasadena, as chairman.

A spectacular feature of the exposition will be a pageant of Christian liberty, entitled "The Striking of American Slavery." This is to be staged by 100 local people in costumes, organized by Mrs. D. W. Thomas of Immanuel Church, and will be directed by George G. Dowry of New York City, who is also general director of the exposition for the Presbyterian denomination. This pageant will be presented each of the four nights.

The exposition will open in Los Angeles next Monday at 8 p.m. with a dinner at the Y.M.C.A. and a service of prayer at the Immanuel Presbyterian Church. The exposition will be held at the Y.M.C.A. and the Y.W.C.A. and will be open to the public free of charge.

Several film directors were present, and the most beautiful girl there, it was declared, will be given a screen test and parts in future film productions.
